ARMAMENT CONFERENCE
MOVED SLOWLY YESTERDAY

Washington, Nov. 22 (By the A. P.)—The negotiations relating to both the Far East and armament limitation moved more slowly today as the attention of the arms delegates passed from general policies to specific details.

China's economic embargoes formed the text of the Far Eastern discussions, which resulted in the appointment of a sub-committee of representatives of nine nations to study the whole subject of administrative autonomy for the Chinese republic with particular reference to tariff and tax restrictions.

The land armament problem also was considered at various informal conferences during the day and a meeting of the armament committee of the whole was called for tomorrow with the expectation that Premier Brand, of France, would say a last word as to his country's attitude on reduction of armaments. It is understood that he is anxious to bring the meeting to a point of a formal expression by the conference before his departure for France.

COUNTY CLOSES YEAR WITH \$53,989 ON HAND AND OWES \$72,000 ON NOTES

New London county closed the year with a balance of \$53,989.95 on hand on September 30, according to the annual statement of the county commissioners, George H. Bradford of Montville, Charles H. Smith of Norwalk and George E. Fellows of Norwich. The county indebtedness is \$72,000 on two notes, one for \$24,000 and the other for \$48,000, the same as it was a year ago.

Total receipts this year were \$171,666.83, including the \$26,051.11 balance carried over from a year ago. Receipts at county jail were \$3,437.31, which was \$2,098.52 more than last year. The state paid this year for board of prisoners at the jail \$6,443.63, which was \$2,743.88 more than the state paid last year. Earnings of prisoners at the jail were approximately \$2,000 in each year.

The receipts from county tax this year were \$120,000, which was \$80,000 more than last year. The \$13,443.50 which was paid on the county accounts, the county home was \$1,490.50 less than the sum paid last year. This year the county commissioners borrowed \$2,500 on a note which was subsequently paid off. Last year they negotiated a similar temporary loan for \$5,000.

The disbursements this year were \$117,678.87 where they were \$65,820.72 last year, but this difference is largely accounted for by the sum of \$54,558.15 paid on the new bridge at Niantic.

Jail expenses were \$17,073.71, which is \$1,225.95 more than a year ago. An increase of \$613.12 in the cost of fuel accounted for the largest part of this. Provisions cost approximately the same both years, but there was \$511.58 more expense this year on building and repairs. Salaries for the jailer and his assistants are the same in both years.

Court house expenses were \$163.55 more this year than last, and county home expenses and repairs were \$83.16 less this year than last.

The county paid state agencies \$6,482.62. In the preceding year this sum of expenditures was \$5,454.58.

NORWICH STATE HOSPITAL IS 155 ABOVE CAPACITY

The Norwich State Hospital is housing 155 more patients than its capacity calls for. The capacity of the institution is 1,350 patients and there are now in the hospital 1,505 patients. Similar conditions have been found to be true of the other insane hospitals throughout the state.

About one-fifth of the number of persons in Connecticut who are mentally defective, who are in institutions or for whom application has been made, are being cared for under overcrowded conditions or cannot be received at these institutions, according to figures compiled Tuesday. There are at present 4,994 patients in four institutions for mental defectives in the state, which is more than the capacity of these institutions and in addition at least 150 applications are on the waiting list.

These figures set forth concretely a fact that has been emphasized frequently during the last year, both at the last session of the legislature and since that time at meetings of the state board of control, in connection with appropriations for additional facilities for caring for the insane. The figures for the four institutions, the Connecticut State Hospital at Middletown, the Norwich State Hospital, the Hartford Retreat and the Mansfield State Training school and hospital are as follows:

Middletown: 1,707 patients; capacity, 2,051; above capacity, 344.

Norwich: 1,505 patients; capacity, 1,350; above capacity, 155.

Hartford: 482 patients; capacity, 175; above capacity, 77; on waiting list, 15.

Mansfield: 600 patients; 600 capacity; 100 on waiting list.

The totals are: 4,994 patients; 4,156 capacity; 838 above capacity; 150 on waiting list.

The above figures are the result of a survey of these figures it should be said that the overcrowding at Middletown and Norwich institutions made by the courts have to be honored, resulting in the overcrowding at the other three institutions.

The Connecticut State Hospital at Middletown the situation has become so acute that notices were sent to the courts of the state making commitments to it that there were no more room in the hospital. During the last four months an average of thirty-three new patients have been received each month as compared with fifty-nine a month during the corresponding months in 1920.

This institution simply cannot care for any more and the fact that 616 patients are now being cared for above the normal capacity of the facilities of the institution is clear proof of that fact.

Bailey, the sum of \$3,500 which he produced and which was used in part on the mortgage on the Bailey property.

It is the claim of Mr. Frazier that the money was a loan, while the claim of the administrator of Mrs. Bailey's estate is that the money was a gift, made voluntarily by Mr. Frazier, who had told Mrs. Bailey she was going to get his money anyway and he thought he might as well give her some of it before he died.

Attorney Arthur F. Libby closed the evidence for the plaintiff about noon Tuesday with the testimony of D. C. C. Barnum and D. E. P. Douglas.
